

Parent Capacity-Building Program

We work with parents involved with Child Protection to build parenting skills and promote well-being for their family.

What we offer

Our individualized program offers services in home or in a safe community setting. Every family works with two coaches – a Parenting Coach and a Family Stability Coach.

Our Parenting Education Coach helps to

- Improve family strengths
- Offer parents opportunities to learn and practice new parenting skills related to child safety and well-being
- Set goals to address individualized concerns
- Reduce the likelihood of child abuse and neglect
- Help parents understand their rights and navigate complex service systems

Our Family Stability Coach works with parents to

- Set goals to increase self-sufficiency
- Plan educational and economic related goals
- Connect with community resources
- Build confidence and the skills needed for greater family stability

Enrollment

Admission to the program is only by referral from Hennepin County Child Protection. Funding provided by Hennepin County.
