THE FAMILY PARTNERSHIP IN THE MEDIA

About The Family Partnership

For more than 140 years, The Family Partnership (TFP) has partnered with families and individuals to remove barriers and clear the path for success for those who have experienced deep poverty and trauma.

Services include multicultural, therapeutic early childhood education; family home visiting; mental health therapy; and, Minnesota's oldest anti-sex trafficking advocacy program. The Family Partnership uses a 2Gen approach incorporating brain science, evidence-based approaches to build strong families, vital communities and better futures for children.
