“There are others like you, who have done what you’ve done and have been where you’ve been. We are all in the act of becoming.”

PRIDE Alumni and Survivor

THE FAMILY PARTNERSHIP

PRIDE

PROMOTING RECOVERY, INDEPENDENCE, DIGNITY & EQUALITY

Let’s start a conversation!

For more information, email **Mikki Mariotti** at mmariotti@thefamilypartnership.org or call us at **612-728-2061** (English/Spanish).

“The Family Partnership taught me how to build leadership skill, to be strong, and how to attack tasks and challenges. They taught me not to be afraid and that there is a process for being heard. I am grateful for those tools and continually incorporate them in my life”

Chris, PRIDE Alumni and Survivor

Safety Disclaimer

We are a community-based program and mobile service. Contact us to learn more about our Anti-Sex Trafficking services today or to request a presentation or training.

“I am grateful to the PRIDE program for how they have guided me to move forward with my life. I look at my life experiences now as my stumbling blocks that were in my way are now what I use as my stepping stones.”

Brenda, PRIDE Alumni and Survivor

We meet people where they are and without judgment.

For more than 40 years, The Family Partnership PRIDE (Promoting Recovery, Independence, Dignity and Equality) program has provided support services to sexually exploited adults, youth and their families so they can live a life free of exploitation and abuse and move towards self-sufficiency.

PRIDE is the first program in Minnesota to deliver services across a life span, including those over age 24 who are not covered by Minnesota’s Safe Harbor Law.

.....

WE BELIEVE

to make progress to end commercial sexual exploitation requires addressing disparities caused by systemic racism and economic inequalities.

WE SERVE

all people, no matter the age, gender or sexual orientation. We serve those with a history of sexual exploitation and those who are at-risk.

WE TAILOR

our services to the individual and/or family’s needs.

PRIDE advocates to disrupt demand, and works to change systemic factors that lead to exploitation and abuse by:

- Providing education and street outreach
- Advocating for public and systems policy change
- Following a harm-reduction model

“We learn from each other in the survivor leadership group. Survivors teach other survivors how to get out there and take your ideas and build your own business, because we are very capable!”

Joy Friedman, PRIDE Alumni and Survivor
